INDEX

INTRODUCTION

The COFAP Shock absorbers listed in this catalogue were developed to meet the requirements of shock absorber users containing part kits for installation, when necessary.

We have made every attempt to anticipate problems and include all relevant information.

However, if there are any persisting doubts we would be pleased to provide you with further information on shock absorbers not included in our catalog.

When submitting your order, please inform clearly the shock absorber number and the quantity, taking into consideration that the minimum quantity to be supplied is 200 units per reference.

PRESENTAZIONE

Gli ammortizzatori COFAP indicati in questo catalogo sono stati sviluppati per soddisfare le specifiche esigenze, contenendo kit montaggio per la installazione, quando necessario.

Riteniamo che le informazioni da noi riportate siano sufficientemente chiare; tuttavia siamo a vostra disposizione per chiarire qualsiasi dubbio.

Saremo lieti inoltre di rispondere a tutte le domande sugli ammortizzatori non contemplate in questo catalogo.

Nel sottoporre le vostre richieste vi preghiamo di indicare con chiarezza il riferimento dell'ammortizzatore, la quantità tenendo presente che il minimo previsto è di 200 pezzi per riferimento.

INTRODUCCION

Los amortiguadores COFAP relacionados en este catálogo han sido desarrollados conforme las exigencias reales de la aplicación, conteniendo kit de montaje para instalación, cuando necesarias.

Las informaciones se presentan de forma bastante precisa, sin embargo, estamos a su disposición para dirimirle cualquier duda.

Tenemos, también, mucho gusto en responder a consultas acerca de amortiguadores que no hacen parte de nuestro catálogo.

Al emitir el pedido, le solicitamos indicar claramente el N° del amortiguador, la cantidad, y asimismo observar que la cantidad mínima de fabricación es de 200 unidades por referencia.

TECHNOLOGICAL RESEACH CENTER
CENTRO TECNOLOGICO DI RICERCHE DI SOSPENSIONI
CENTRO TECNOLÓGICO DE PESQUISAS DE SUSPENSIÓN

REBOUND BUMPER

Full extension suspension test.

GRANDINO

Prova rimbalzo della sospensioni.

CAIDA DE RUEDA

Prueba en fin de curso de la suspension.

INCLINED BELGIAN BLOCKS

For harshness and noise analysis at low speed.

PAVÉ INCLINATO

Per analisi di asperità e rumore a bassa velocità.

PARALELEPÍPEDO INCLINADO

Para analisis de ruido y aspereza en baja velocidad.

SINUSOIDAL

For oil flow noise, comfort and adherence at irregular surface.

SENOIDALE

Per analisi di rumore di flusso, confort, e tenuta di strada in fondo sconesso.

SENOIDAL

Para analisis de ruido de flujo, confort, y adherencia en piso irregular.

CABBLESTONES

For noise analysis at strong impacts and shock absorber temperature measurements.

SASSI ROTONDI

Per analisi di rumore in forti colpi e per misura di temperatura degli ammortizzatori.

GUIJARRO ROLLADO

Para analisis de ruido en fuertes choques y medicion de temperatura de los amortiguadores.

SMOOTH BELGIAN BLOCKS

For harshness and noise analysis at medium and high speed.

PAVÉ LISCIO

Per analisi di asperità e rumore a media ed alta velocità.

PARALELEPÍPEDO LISO

Para analisis de ruido y aspereza en media y alta velocidad.

TORTURE LANE

Noise and fatigue tests for suspension systems.

PISTA DI AFFATICAMENTO

Prove di rumore e fatica di sistemi di sospensioni.

PISTA DE TORTURA

Prueba de ruido y fatiga de sistemas de suspension.

SPEED BUMPER

Complete suspension movement test.

OSTACOLO

Prova di movimento di passaggio.

OBSTACULO

Prueba de movimentacion de pasaje.

TESTING LANES

HIGH TECHNOLOGY IN PROVING GROUND

To obtain an adequate compromising between vehicle confort and safety, COFAP built its own proving ground to test its products and suspension systems. With this, COFAP suspension systems will be designed and developed together with the customers with shorter lead-time. The COFAP shock absorbers and struts, with specific characteristics for each vehicle, are exhaustively tested by specialized personnel and under most severe conditions at COFAP proving ground as well as in the simulators at the Suspension Technological Reseach Center.

FONDI STRADALI DI PROVE

TECNOLOGIA DI PUNTA IN CAMPO DI PROVE

Per ottenere un rapporto adeguato tra confort e sicurezza della vettura, COFAP ha costruito suo proprio campo di prove per collaudi di suoi prodotti e sistemi di sospensioni. In questo modo, i sistemi di sospensioni COFAP saranno progettati e sviluppati insieme con i clienti, con maggior rapidità nel ciclo di sviluppo. Gli ammortizzatori COFAP, con caratteristiche specifiche per ogni vettura, sono collaudati in modo esauriente con personale specializzato sotto le condizioni più esigenti di fondo stradale nel campo di prove della COFAP ed anche nei banchi di prove del Centro Tecnologico di Ricerche di Sospensioni.

CARRETERAS DE PRUEBAS

TECNOLOGIA DE PUNTA EN PRUEBAS

Para obtención de una relación adecuada entre confort y seguridad del vehículo, la COFAP construyó su propio campo de pruebas para avaluar sus productos y sistemas de suspensión. Así, los sistemas de suspensión COFAP serán proyectados y desarrollados juntamente con los clientes con mayor agilidad en lo ciclo de desarrollo.

Los amortiguadores COFAP, con características específicas para cada vehículo, serán avaluados por personas especializadas e bajo condiciones mas exigentes de terreno en el campo de pruebas de la COFAP bien como en los simuladores del Centro Tecnológico de Pesquisas de Suspensión.

GP32

GAS CHARGED

The Advanced technology on COFAP's Gas Charged Shock Absorbers assures its continuous performance, even at high temperature. The nitrogen in its interior prevents air bubbling in the hydraulic fluid and vacuum in the oil reservoir. Performance is always uniform, thus providing longer working life not only to the shock absorbers themselves, but also to the tyres.

The result is maximum ground adherence, increasing the vehicle's stability on curves or sudden stops.

Thanks to its automatic adjustment, COFAP "Gas Charged" Shock Absorbers show top performance in any kind of road condition.

G.27
G.30
G.32

GAS CHARGED

Apportando una tecnologia avanzata sugli ammortizzatori a gas, la COFAP ne assicura la loro continua prestazione anche ad alta temperatura.

L'azoto al loro interno previene il formarsi di bolle d'aria nel fluido idraulico. La prestazione é sempre uniforme, per cui viene assicurata una durata piu lunga non solamente agli stessi ammortizzatori, ma anche ai pneumatici.

Il risultato é massima aderenza al suolo, aumento della stabilitá in curva o in frenate improvvise.

Grazie alla loro regolazione automatica, gli ammortizzatori "Gas Charged" COFAP hanno prestazioni sempre al massimo in qualsiasi condizione di strada.

GB47

GAS CHARGED

La tecnologia avanzada de los amortiguadores a gas COFAP asegura una acción continua de lo amortiguador, mismo en alta temperatura.

El nitrógeno en su interior evita la formación de burbujas de aire en el aceite y de vacío en la cámara de aceite. Así, su funcionamiento es siempre uniforme, proporcionando vida más larga no solamente al amortiguador más también a los neumáticos.

Todo esto resulta en máxima adherencia del vehículo al suelo, aumentando su estabilidad en curvas o en frenadas bruscas. Gracias a la regulación automática, el amortiguador "Gas Charged" COFAP adaptase a cualquier tipo de suelo.

STRUCTURAL AND CARTRIDGE

Besides controlling the impulses transmitted by the springs, the Structural shock absorbers also maintain the correct wheel position and function within the suspension geometry and practically bear all the efforts transmitted by the wheel. It is important to emphasize that due to the double function played by the structural shock absorber the piston rod, the reservoir and pressure tube are produced with materials of high mechanical properties and great dimensional robustness. According to the vehicle specification, either the complete struts or cartridges are replaced.

27
30
32

MONTANTE E CARTUCCE

Oltre alla sua funzione di controllare gli impulsi trasmessi dalle molle, gli ammortizzatori a montante mantengono anche una corretta posizione dell pneumatico entro la geometria della sospensione e sopportano praticamente tutti gli sforzi trasmessi dell pneumatico.

E' importante mettere in evidenza che per la doppia funzione esercitata da quest'ammortizzatore, lo stelo, il tubo di deposito e di pressione, vengono prodotti con materiali di elevate proprietà meccaniche e con maggior robustezza dimensionale.

Secondo le specifiche del veicolo vengono sostituiti sia gli ammortizzatori strutturali che le cartucce.

B.47

ESTRUCTURAL Y CARTUCHO

Además de su función de controlar los impulsos transmitidos por los resortes, los amortiguadores estructurales mantienen la correcta posición de la rueda dentro de la geometría de la suspensión y suporta prácticamente todos los esfuerzos.

Conviene resaltar que debido a la doble función ejercida por este amortiguador, su vástago, tubo de depósito y de presión, son producidos con materiales de elevadas propiedades mecánicas y con más fuerza dimensional.

De acuerdo con las especificaciones de los vehículos, tanto el amortiguador estructural como el cartucho pueden ser reemplazados.

TWIN TUBE HYDRAULIC SHOCK ABSORBER

The COFAP twin tube Shock Absorber have a hardened chromed piston rod with precision ground that reduces friction and wear to a minimum. The valves on COFAP Shock Absorbers are provided with controls which enable the shock to adjust automatically to any road condition.

AMMORTIZZATORE IDRAULICO A DUE TUBI

L'Ammortizzatore COFAP a due tubi ha un' asta del pistone cromato e indurito insieme ad una rettificata precisa che riduce l'attrito ed il consumo al minimo. Le valvole sugli ammortizzatori COFAP hanno dei dispositivi che permettono una regolazione automatica con qualsiasi condizione di terreno.

L.27

AMORTIGUADOR HIDRAULICO A DOS TUBOS

El Amortiguador COFAP de dos tubos tiene el vástago del piston cromado y endurecido junto a una perfecta terminacion que reduce el atrito y el desgaste al mínimo. Las válvulas en los amortiguadores COFAP tienen etapas que los ajustan a toda y cualquier condición del suelo.

STEERING DAMPER

To absorb the vibrations undergone by steering system, some vehicles are equipped with steering dampers. COFAP steering dampers are made of a high quality material and are available for many replacement applications.

AMMORTIZZATORE DI DIREZIONE

Per poter assorbire le vibrazioni portate dal sistema sterzante, alcuni veicoli vengono equipaggiati con ammortizzatori di direzione. Gli ammortizzatori di direzione COFAP sono costruiti con materiali di alta qualità e sono disponibili per molte applicazioni al ricambio.

22

AMORTIGUADOR DE DIRECCION

Para absorber las vibraciones sufridas por todo el sistema de dirección, ciertos vehiculos son equipados con amortiguadores de dirección. Los amortiguadores de dirección COFAP son hechos con materiales de alta calidad e estan disponibles para una vasta aplicación en reposición.

PROCEDURES FOR THE DISPOSAL OF USED SHOCK ABSORBERS/ ISTRUZIONI TECNICHE PER LO SMALTIMENTO DI AMMORTIZZATORI USATI / PROCEDIMIENTOS PARA DESHACER DE LOS AMORTIGUADORES VIEJOS

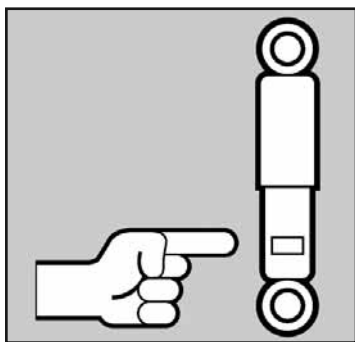

INFORMATION

Wear safety glasses and protective gloves during the drilling and disposal operation.

Indossare sempre occhiali e guanti di protezione durante le operazioni di foratura e di smaltimento.

Use gafas de seguridad y guantes.

Check the piece to determine if it is a gas charged or a hydraulic version.

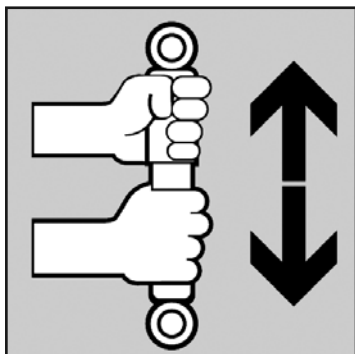

Controllare il pezzo per stabilire se si tratta del tipo a gas ou non a gas.

Compruebe que la unidad es del tipo convencional o presurizada.

- Place the piece in a horizontal position in a vice.
- Make sure that the piece is secured in the vice and cannot move while being drilled.

- Mettere il pezzo in posizione orizzontale su di una morsa.
- Assicurarsi che il pezzo sia ben fermo nella morsa e che non si muova durante la foratura.

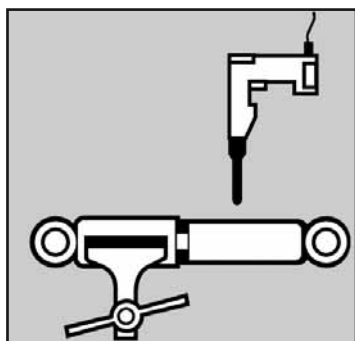

- Coloque la pieza en posición horizontal.
- Verifique de que la pieza esté firme y que no se moverá durante la operación de perforación.

Before drilling, extend the piston rod completely.

Prima di forare tirare al massimo l'asta dello stantuffo.

Antes de taladrar, extienda el vástago hasta el máximo.

Drill a 3mm diam. hole in the oil tube, 20mm from the lower end of the body.

Fare un foro di 3 mm di diametro sul tubo esterno, a 20 mm dalla parte inferiore.

Talandre un agujero en el tubo de reserva de 3 mm de diametro, a 20 mm de la fijación inferior.

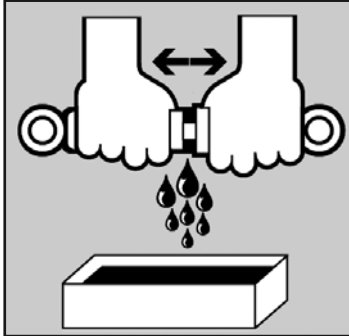

- After the gas is released, increase the first hole from 3 mm to 5 mm, 15 mm deep. Please collect any escaping oil in a suitable container.
- Compress the unit by 30 mm.
- Drill a second 5 mm diam. hole, 15 mm deep, 50 mm from the top end.

- Dopo che il gas sarà uscito, aumentare il foro di 3 mm para 5 mm di diametro, profondo 15 mm, raccogliete tutto l'olio che esce in un contenitore adatto.
- Cumprimete il pezzo di 30 mm.
- Fate un altro foro di 5 mm di diametro, profondo 15 mm, a 50 mm dalla parte superiore.

- Después de tener salido la presión del gas, aumente la anchura del agujero de 3 mm para 5 mm, de 15 mm profundo. Utilize en un contenedor apropiado para el aceite vertido.
- Cierre el amortiguador un mínimo de 30 mm.
- Taladre uno agujero más de 5 mm de diametro, de 15 mm profundo a 50 mm del final del tubo de reserva.

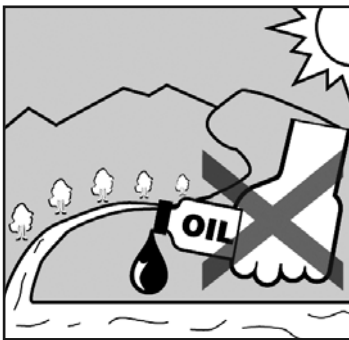

**PROCEDURES FOR THE DISPOSAL OF USED SHOCK ABSORBERS/ ISTRUZIONI TECNICHE PER LO SMALTIMENTO
DI AMMORTIZZATORI USATI / PROCEDIMIENTOS PARA DESHACER DE LOS AMORTIGUADORES VIEJOS**

Remove the unit from the vice and empty the oil in a suitable container by compressing and extending the piece.

Togliete il pezzo dalla morsa e vuotate l'olio in un contenitore adatto comprimendo e triando il pezzo.

Para acelerar la salida del aceite, mueva el vástago del pistón, siempre utilizando un contentor adecuado.

Check with local authorities any information about the disposal of the oil scrapped shock absorbers.

Controllate presso le autorità locali informandovi sullo smaltimento di entrambi i rifiuti, olio ed ammortizzatore rottamato.

Infórmese con las autoridades de protección del medio ambiente como deshacerse del aceite y de los amortiguadores viejos o defectuosos.

ENVIRONMENT

COFAP already complies with all government agencies requirements, maintaining continuous improvement, programs to reduce and eliminate all residue, accomplishing with adequate environmentally safer manner.

AMBIENTE

La COFAP risponde a tutte le esigenze degli organismi ambientali e, quindi, mantiene un programma continuo allo scopo di migliorare i suoi residui, diminuendoli, trattandoli e disponendoli adeguatamente.

MEDIO AMBIENTE

COFAP atiende todas las exigencias de las autoridades gubernamentales, sino también, mantiene un programa de investigación continuo para reducir, eliminar y tratar los residuos de manera más adecuada.

QUALITY

In recognition of requirements of quality procedures, the suspension unit has obtained the TS16949 certification, being an award to our continuous product and services improvements.

QUALITÀ

In riconoscimento per la qualità del prodotto, la divisione di ammortizzatori ha ricevuto il certificato TS16949 come premio per il continuo perfezionamento del prodotto e servizio.

CALIDAD

En reconocimiento de la cualidad del nuestro producto, la división de amortiguadores ha obtenido el certificado TS16949, siendo un premio al nuestro continuo perfeccionamiento del producto y del servicio.
